

Teams as a Hub for Applications

Inês Oliveira

Solutions Manager

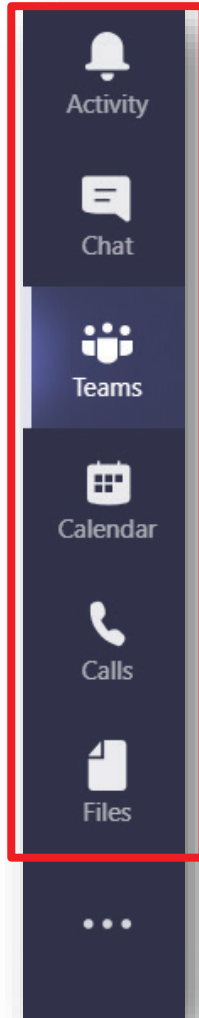

Projetos cofinanciados pela EU

Joining Communication with Collaboration and with Personal Productivity

The native Collaboration features are now mostly known, valued and used broadly across organizations

The screenshot shows the Microsoft Teams interface. On the left, a list of teams is visible, including 'Microsoft 365', 'Upp19282 VdA Proposal', 'u Employee Experience', 'Solutions Leaders Team', 'EMEL - eLearning Lead', 'Clientes - GRM ODFB & Teams Adopt', 'Media Lab', and 'Montepio Crédito - CRM'. The 'Closed Projects' team is selected, and its document library is shown on the right. The document library contains a table of projects.

Teams for chatting, meeting and sharing files are commonly adopted

Examples of how Apps enhance your working experience

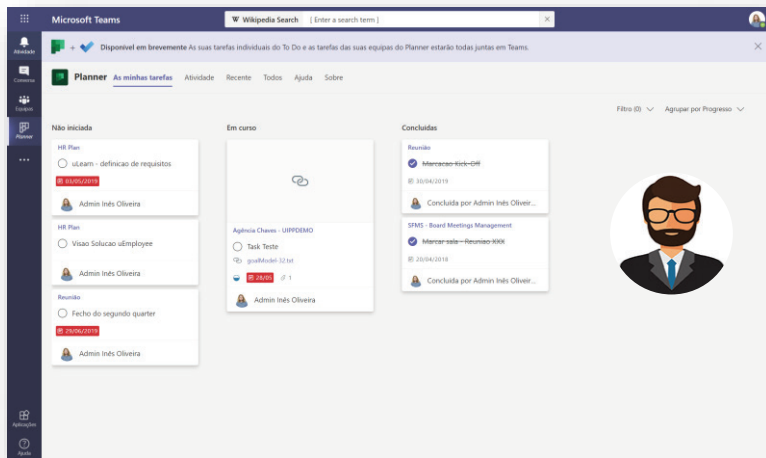

For Collaboration with teams or one-on-one

- Use apps in tabs and in channels to support your teams
- Keep the right people informed with connectors
- Send messages with more than just text

For enhancing Personal Productivity

- Use apps to have a bird view of all your information
- Use Apps as a control center
- Pin your most used apps for easy access
- Chat with bots to find information and get things done

What can a Teams App do?

Teams is designed as a hub for teamwork that integrates apps and services that people use to get work done together!

Collaborate on items in external systems

Trigger workflows from conversations

Notify your team of important events

Embed functionality from other sites

Extend Teams with ready to use Apps or create your own customized Apps

Custom Apps

Healthcare Manufacturing Retail Banking
Departmental tools Employee resources Support & info Processes & workflow

Ready to use Apps

Office 365 Applications + Third Party Apps

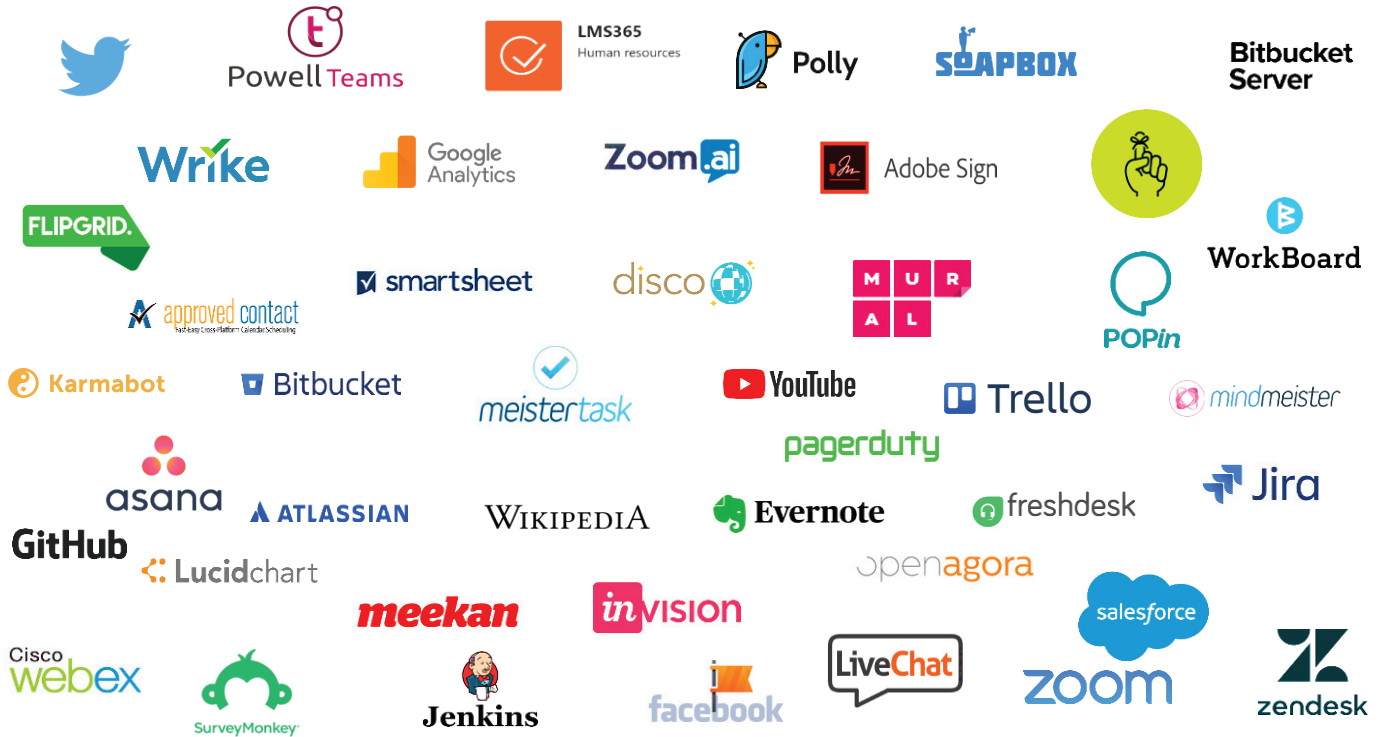

Powell Teams Polly.ai LMS365 Human resources Adobe Wrike Jira Core servicenow GitHub

Ready to use Apps

OFFICE 365 Applications

Over 250 External Applications

Typical Implementation Scenarios

Bring existing web applications to teams and provide a central point of access to corporate apps

Document and streamline processes with Flow and Power Automate

Develop Apps within Teams to ease accessibility and anywhere access
